

The Best of the Popular Sumisansui Series

# SUMISANSUI-R

## Special Perforated Irrigation Tube

Spreads a uniform soft spray over an area of any width up to 8 meters.  
Maintains uniformity over long distance (100m) and on slopes.  
A single 100m roll irrigates up to 10 ares with low installation cost.  
Thick tube wall with reinforcing ribs enhances strength and durability.  
Easy to lay, remove and store with convenient plastic reels and winder.  
Applicable to many crops in fields, orchards or greenhouses.
